DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on February 4, 2004 is being considered by the examiner.

Allowable Subject Matter

3. Claims 1-3 are allowed.
4. The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly disclose a semiconductor memory device as claimed, comprising: an external access controller which outputs an external access execution timing signal for indicating an execution timing of an access operation to the memory cell array; and a refresh controller which outputs a refresh execution timing signal for indicating an execution timing of a refreshing operation to the memory cell array, wherein an output enable signal supplied from an external device changes to active in a read cycle; a latch signal changes to active and then inactive to indicate latching of a read signal which is read from the memory cell array; in the read cycle, the external access execution timing signal changes to active triggered by the change of the output enable signal to active; and changes to inactive triggered by a start of a latch of the read signal caused by changes of the latch signal to active and inactive; a refresh requirement signal changes to active to instruct an execution of the refreshing operation to the memory cell array; and in the read cycle, the refresh execution timing signal changes to active according to the change of the
